# Estimating Residential: Construction, Roofs & Metal Sheathing

Date: March 22 - March 23, 2023 (2 day course)

**Time:** 8:30 am - 4:00 pm

Location: BCFCA Office, 19299 94 Ave, Surrey, BC V4N 4E6

**Estimating for Residential Construction** covers all the basics of estimating residential construction starting from the ground up. This includes disclaimers, walls, roofing systems, metal sheathing and reading and understanding blueprints. Attendees are provided with a step-by-step workbook to assist them through the course. The workbook is theirs to keep for future reference.

**Who Should Attend?** It is recommended that estimators who frequently produce estimates for houses should attend this course.

### **Objectives:**

- 1. Acquire a good understanding of building practices.
- 2. Gain knowledge of products used in home construction.
- 3. Learn to produce accurate and professional estimates.

#### **Course Outline**

**Introduction:** Learn how to read a residential blueprint; learn the basics sections of house construction.

**Clarification of Terminology:** The attendees will be taken through all necessary terminology to complete the course.

- -Introduction, skill-set required, course objective
